

## **Class 16 - Cut Flowers**

Helpful hints:

Bloom - an individual flower, one to a stem

Spike is a thick, upright stem, carrying several flowers

Spray – a portion of a plant with a number of flowers on one stem

Stem – a single stem carrying one or more flowers and/or buds and greenery

Uniformity in size, colour, form, stem and foliage is desirable

Cut flowers and foliage the evening before the show or in the early morning

Flowers stay fresher and show better if there are NO LEAVES in the container

Make a fresh slanting cut at the end of stems for maximum water intake

**Consider stability when you are selecting your container**

**Prize money in sections 1 – 37**

**\$4.00/\$3.00/\$2.00**

1. Asters, 3 blooms, double variety
2. Asters, 3 blooms, single variety
