The purpose of these baby and children blankets made with love is to provide a sense of security, warmth, love and comfort to children who are seriously ill, traumatized or in need, so please keep colours and fabrics in mind when making these specifically for children. For more information you can check out the "Project Linus" on line at <http://projectlinuscanada.org/blanketeers.html>.

144. Knitted or Crocheted Therapeutic Hand Muff

It's a basic knitted or crocheted muff using different yarn textures and colours. Items, such as beads, buttons and ribbons, are then attached (inside and outside) to provide even more tactile stimulation. People with dementia often have restless hands and can be soothed by having something to keep their hands occupied. The muff provides a source of visual, tactile and sensory stimulation at the same time as keeping hands snug and warm.
